

New Source Review newspaper advertisements for construction permit applications, March 9, 2006. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: March 7, March 8, or March 9, 2006. Public notices are generally published every two weeks. The previous publication of public notices was February 21 – 23, 2006.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is CoorsTek Tennessee Operations with a mailing address of 1100 Commerce Park Drive, Oak Ridge, TN 37830-8018. They seek to obtain an air contaminant permit (Division identification number: 01-0151-04/58965) for modification of a Spray Dryer located at the same address. This existing operation consists of a spray dryer used for processing of ceramic powder. Natural gas is used for fuel. A cyclone and dry dust collector are used for pollution control. The requested modification is to allow the use of propane as fuel. There would be physical construction. Regulated air contaminants emitted by this source may increase. Mr. T. Blake is the assigned Division person.

For the Anderson County "Oak Ridger"--published once on or before Thursday, March 9, 2006.

The applicant is Angus Industries Inc., dba Angus-Palm with a mailing address of P.O. Box 249, Greeneville, TN 37743. They seek to obtain an air contaminant permit (Division identification number: 30-0174-03/58934) for construction of a Surface Coating Operation at Harden Park Circle, (Track No.1, Hardin Industrial Complex), Greeneville, TN 37743. This proposed operation would consist of a spray booth and associated equipment to be used for coating cabs and roll over protection systems. Exhaust filters would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. K. McLain is the assigned Division person.

For the Greene County "Greeneville Sun"--published once on or before Thursday, March 9, 2006.

FIRST APPLICANT

The first applicant is Hurst Trailers with a mailing address of P.O. Box 39, Washburn, TN 37888. They seek to obtain an air contaminant permit (Division identification number: 29-0038-01/58919) for construction of a Surface Coating Operation at 9050 Hwy 131, Washburn, TN 37888. This proposed operation would consist of a spray booth and associated equipment to be used for coating trailer frames. Exhaust filters would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. K. McLain is the assigned Division person.

SECOND APPLICANT

The second applicant is Petoskey Plastics, Inc. with a mailing address of 5725 Commerce Blvd, Morristown, TN 37814. They seek to obtain air contaminant permits (Division identification numbers: 32-0173-13/58903 and 32-0173-14/58904) for construction of Blown Film Extrusion Line 7 and Corona Treater 8 located at 5320 East Morris Boulevard, Morristown, TN 37814. These proposed operations would consist of a new blown film extrusion line including one in-line Bellmark printer and a new Enercon Industries Corporation's Corona Treater. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. V. Murrell is the assigned Division person.

For the Hamblen County "Citizen Tribune"--published once on or before Thursday, March 9, 2006.

The applicant is Wayne Vandiver Sawmill, LLC with a mailing address of 705 Walnut Grove Road, Bolivar, TN 38008. They seek to obtain an air contaminant permit (Division identification number: 35-0075-01/58680) for modification of a Woodworking Operation located at the same address. This existing operation consists of three diesel-driven chain system sawmills. The requested modifications are to increase the material input rate to 20,000,000 board feet per year, and to replace two existing sawmills (210 hp and 300 hp) with a new 300 hp sawmill. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants are emitted by this source. Ms. G. Latif is the assigned Division person.

For the Hardeman County "Bolivar Bulletin-Times"--published once on or before Thursday, March 9, 2006.

The applicant is Tri Cities Concrete Co., Inc with a mailing address of 339 Colonial Road, Rogersville, TN 37857. They seek to obtain an air contaminant permit (Division identification number: 37-0043-01/58858) for modification of a Concrete Batch Plant located at the same address. This proposed modification would consist of the addition of two silos for storage. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. K. McLain is the assigned Division person.

For the Hawkins County "Rogersville Review"--published once on or before Thursday, March 9, 2006.

The applicant is Nut Bush Gin Company, Inc. with a mailing address of 11107 Hwy 19, Brownsville, TN 38012. They seek to obtain an air contaminant permit (Division identification number: 38-0009-01/58931) for modification of a Cotton Gin located at the same address. This existing operation consists of gin stands, lint cleaners, and associated equipment used to de-seed cotton. Cyclones and mesh screen are used for pollution control. The requested modification is for the increase the permitted annual bales of cotton processed. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. J. Fuss is the assigned Division person.

For the Madison County "Jackson Sun"--published once on or before Thursday, March 9, 2006.

The applicant is City of Rockwood with a mailing address of 110 N. Chamberlain Avenue, Rockwood, TN 37854. They seek to obtain an air contaminant permit (Division identification number: 73-0178-01/58842) for construction of an Air Curtain Incinerator at Black Hollow Road and Miller Lane, Rockwood, TN 37854. This proposed operation would consist of a trench type air curtain incinerator for brush and wood waste disposal. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. K. McLain is the assigned Division person.

For the "Roane County News"--published once on or before Thursday, March 9, 2006.

The applicant is Finishing Innovations, Inc. with a mailing address of 578 Hwy 70, Mason, TN 38049. They seek to obtain an air contaminant permit (Division identification number: 84-0100-01/58910) for expansion of a Hard Chromium Electroplating Operation located at the same address. This existing operation consists of two electroplating tanks and associated equipment used to deposit a film of chrome onto medical devices. Emission elimination devices (EED) consisting of a tank lid with semi-permeable membrane and HEPA filter are used for pollution control on each tank. The requested modification is for the installation of two additional electroplating tanks with identical EED emission control devices. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. J. Fuss is the assigned Division person.

For the Tipton County "Covington Leader"--published once on or before Thursday, March 9, 2006.
